

Briefing note

Bridge Repairs, H10 Bletcham Way / Simpson Road Canal Bridge, Mount Farm.

Prepared by	Philip Welborn
Date	2 nd May 2024
Purpose	Works Notice Update

Scheme Update – Road Closures

We are continuing with works that started in March 2024, to carry out repairs to the bridge over the canal and Simpson Road. This work, to improve the drainage, waterproofing and undertake resurfacing is essential to extend the life of the bridge by preventing leakage through the deck that is damaging the supporting beams and columns.

The work should be complete by the end of June 2024 however we need to temporarily close the section of H10 Bletcham Way from the Fenny Lock Roundabout to Bond Avenue to create a safe working site. We will also need to close Simpson Road under the bridge for a total of four days in May. Users of the redway over the bridge, the canal towpath and boat traffic will not be affected by the works. For details, please refer overleaf for diversion routes and dates.

Please note that the above time periods may be subject to amendment which will be published on [one.network](#). Also, should you have any questions you may contact the team directly at highwaystructures@milton-keynes.gov.uk.

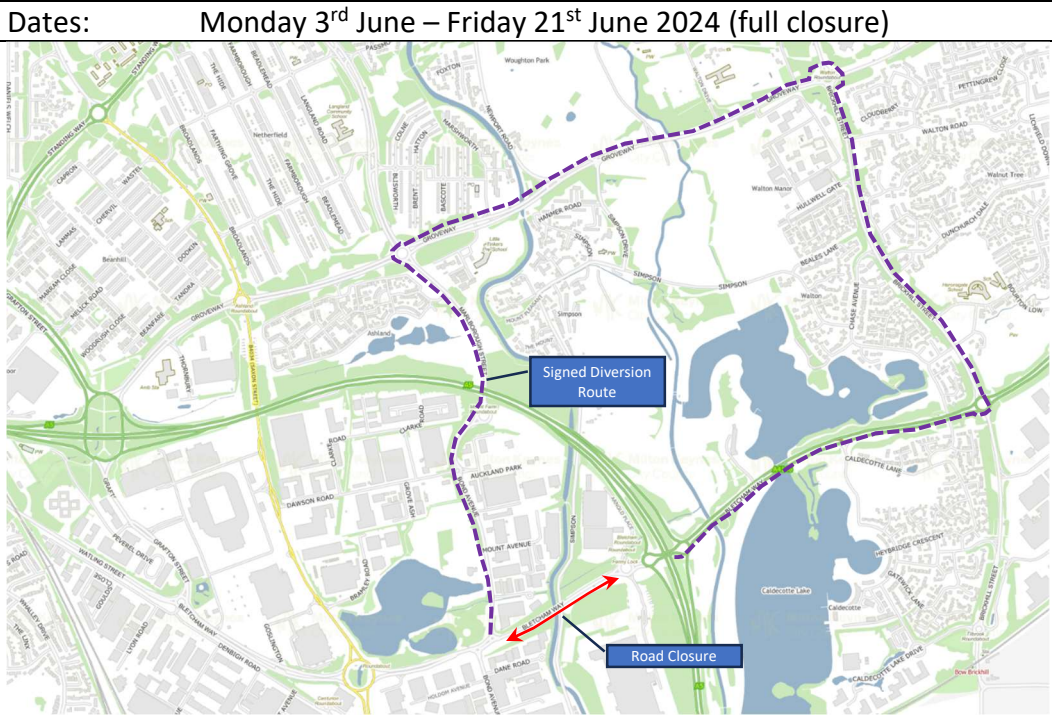

Thank you.
