- Flood Zone 2 - proxy for climate change

**Milton Keynes City Council
Level 1 SFRA - Appendix D
Fluvial Climate Change (CC)**

Notes

The existing Environment Agency models of the Upper Ouse and Mid Ouse were re-run with the latest climate change allowances. Where there is no fluvial model available, Flood Zone 2 has been used to provide indicative information on climate change for Flood Zone 3a. Detailed hydraulic modelling using topographic survey would be required at a site-specific level to confirm the flood risk to these sites.
