

Important information for residents

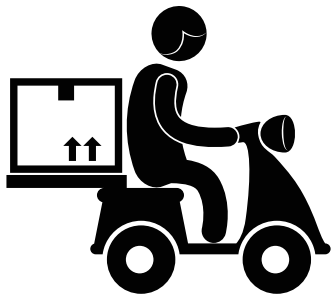

We'll be doing works in your area soon, here's what you need to know.

If you have a question or complaint about the works we are doing, or a general highways query, please call 01908 252353. You can also use the Report It section on the MKCC website.

If the dates change we'll let you know what the new ones are using the yellow scheme notice boards. We may have to fully reschedule if the weather conditions are poor.

Please reschedule any deliveries to your property during the time the site is in operation if access is restricted as they will not be able to pass through the work site.

Our staff will wear ID and branded PPE. They do not cold call or offer any services for your property. Any individuals claiming to do this should be reported to Trading Standards on 0808 223 1133

Important information for residents

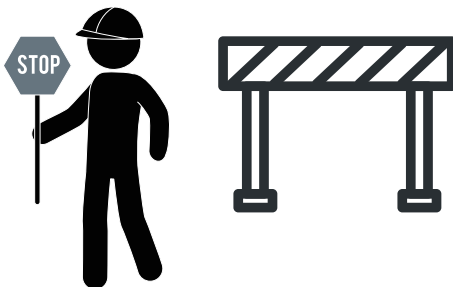

We'll be doing works in your area soon, here's what you need to know.

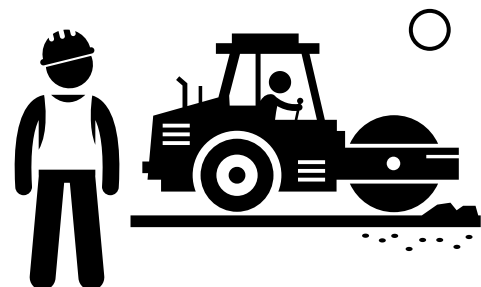

You will always be able to access your home although sometimes vehicle access may not be possible temporarily. Access for fire engines, police vehicles and ambulances will be maintained at all times.

You may need to park your car elsewhere if you need regular access to it, especially if we need to access drains or lamp columns.

Keep to a low speed when approaching the work area and follow the guidance on the signs or from the site operatives.

Although it's a work site and heavy machinery will be noisy, we'll do our best to keep it to a minimum. We'll usually schedule works for off peak times during the day.
