

## Cody jackson my manifesto

Hello my name is cody jackson and i am your current MKYC representative at lord grey i was elected on the 5th feb 2022 and what a journey it has been for me i have engaged in so many powerful meetings to raise the issues facing you currently and this ranges from youth crime,mental health,anti social behaviour,and more freedom for you as young people as i really understand that many of you feel you are treated unfairly from the people with power so i do believe i have been a strong voice for you in the council I feel very strong about being elected to serve you and delivering on what has been left for too long

I think it's only right that i talk about some of the things i have already achieved in my first term i have attended every single meeting so far of the youth council which shows my dedication and what fuels me to do so is i get to talk about the students here and see what the council can actually do to make your lives easier i have spoken to many MPs,councilors and even cabinet ministers on topics like elections so democracy and mental health for example we lowered a mental health service age to 14 as we felt to many young people wasn't getting the support they desperately needed One key issue that i care passionately about is injustice for young people every day across our city we see to many young people not haveing the right support or help they should have because those in power don't come from a youth perspective

Thank you for taking the time to read my manifesto one last note from me if elected for a second term i will fight for you and i will fight for the issues facing young people no matter what
