

Hi, I'm Jack, and I'm passionate about making Milton Keynes a place where young people feel empowered, heard, and supported. If elected, I will work to tackle key issues and ensure your voices shape the decisions that affect us.

Inspiring Youth Voices

I believe every young person deserves to be heard. I will create platforms where ideas and concerns can be shared openly, including workshops, school visits, and online campaigns. By showcasing real examples of youth-led change, I'll encourage more young people to participate and see the value of their voices.

Addressing Social Issues

Young people in Milton Keynes face significant challenges like mental health struggles, safety concerns in public spaces, and limited access to opportunities. I will advocate for better mental health support, initiatives to improve public safety, and more accessible career and extracurricular programs. I'm also committed to promoting sustainability and giving young people more opportunities to act on climate change.

Skills and Commitment

I bring strong communication, leadership, and teamwork skills that I've developed through [numerous school events]. I'm approachable, a great listener, and dedicated to creating positive change. I also have experience organizing events and campaigns, which will help drive impactful initiatives.

Balancing Responsibilities

Time management is my strength, and I'm confident in my ability to balance MKYC activities with other commitments. I use planning tools to stay organized and will always prioritize the responsibilities of this role.

Your Voice, Our Future

By voting for me, you're choosing a representative who listens, acts, and leads with integrity. Together, we can make Milton Keynes a better place for young people to thrive.
