

I would like to be a representative for my school at Milton Council because of my passion to support other students, as I believe that at one time or another all students will need support of different kinds, and I want to make myself available for this.

I also have vast experience in helping schools and communities because in my primary school I was part of the catholic school Mini-Vinnie team (someone who help the community). I donated to food banks and loaded food into the food delivery Van.

I was also part of the ECO team and we planted trees and fruits/vegetables, and I also helped raise money for a school in Ghana, through events organised by the school and I was part of the retail team that sold cakes, Ice cream and organising fun games. By raising this money, the school in Ghana were able to hire teachers, provide school food and get supplies such as pencils, pens and whiteboards.

I will attend meetings by adjusting my plans for the day. If the meetings are during school time, I will inform my teacher in advance that I may need to leave the lesson early due to a meeting.

I want this role because I am passionate, I am a good listener, empathic and bold speaker. I do not shy away from learning new things but rather I want to know more and will always strive to be the best in anything I do.

I will be happy for this opportunity to represent my school
