

Hello everyone, my name's Jonty Pentz and I'm hoping to be elected as the Radcliffe School representative for Milton Keynes Youth Council.

I have been on youth council for two years now; this position has allowed me to achieve so many good things, for the better, whether it be through influencing council policy change or editing the MKYC Mental health report which we found significant findings in and recommended things to services. I think to be a youth councillor having a wealth of experience is extremely important, and the past two years have given me an understanding of how the youth council works and what we can achieve. One of the next campaigns is culture, media and sport, along with youth crime as voted for by you guys last year, and I am interested in leading the Culture Media and Sport campaign for the whole of Milton Keynes. I want to give more money for one-to-one music and art lessons, making learning affordable for all, and create more cultural and sporting events. I want to improve communication in the media throughout the city, limiting disinformation and lies that spread on social media, and helping people know where to go to get support. I will push for more health-related physical activity through sport, and I hope we can create real change in Milton Keynes.

All I am asking for is your vote. Your vote for change, for fairness, for all the things that we want to achieve. Your vote will inspire me to achieve the changes I know we can make in Milton Keynes, for the better.

Every. Vote. Counts.

And I'm counting on yours.
